PURPOSE OF THE PROJECT

The project "Digital Skills in Action-Digital Competence in Action" is, according to the proposed activities, training students to prepare them for the labor market, providing opportunities for professional development of the teachers. The project aims to prepare parents and the wider community by engaging them in activities to:

- Determine a real change in the community through the students in the target group that will be true digital ambassadors ;
- Knowledge of different systems of education, during the exchange of good practices in the project meetings;
- Stimulate learning English (both for students and teachers);
- Improved the use of ICT skills;
- Meeting the individual needs of the participating countries through fulfilling the EU priorities as regards the European framework of digital competence.

AIMS

- Informational Management -how to identify, locate, access, retrieve, store and organize information;
- Collaboration safely and constructively with other members of the communities and the digital networks;
- Communicating and sharing the knowledge and skills through online resources;
- Developing a digital tool allowing self-management level intellectual content;
- Improving the content for teacher training;
- Assessing and solving problems through digital means;
- Effective use of technology and media.

TYPES OF ACTIVITIES

- Ⓢ Transnational management project meetings;
- Ⓢ Teacher education / job- shadowing opportunities;
- Ⓢ Student exchanges;
- Ⓢ Events regarding dissemination;
- Ⓢ Making intellectual products:
 - Training materials for future Digital champions (students);
 - Good practice guide also containing the impact study.
- Ⓢ Parental involvement activities, with the associated partners.
